Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: In a telephone conference with Applicant's attorney, I told Attorney Tendler that Trina Riddick had indicated that some of the references cited in the Supplemental Information Disclosure Statements did not have the dates for the indicated patents. However, I indicated with my initials that I had considered all of the patents for which there are initials, regardless of the non-citation of the dates and regardless of whether the application number was present and correct on each form, the form submitting the Information Disclosure Statement having had a cover sheet indicating the correct application number. In addition, for the non-patent literature that did not include an adequate date, the literature has nonetheless been considered. Moreover, my lining through the forms did not mean that I had not considered the lined-through references.
